Safety Instructions:

- Choking hazard due to moving parts or small parts. Keep children away from moving parts and cable outlets.
- Risk of electric shock due to improper use and damp environments. Protect all electrical components from water and improper handling. Check regularly for damage.
- Risk of injury due to improper height adjustment. Ensure that no body parts are trapped and only operate the adjustment according to the instructions.
- Risk of floor damage and tipping over if the table is uneven. Use the floor levelling screws and place the table on a stable, level surface.
- Use the Memory Master and other electrical functions with care. Keep children away from the controls and read the operating instructions before use.
- Maximum loads: 100 kg static, 60 kg dynamic. Do not exceed these weights to avoid structural damage and tipping over.
- Secure cables to avoid tripping hazards. Use the cable outlets provided and ensure that cables are laid properly.
- Only to be operated by adults or under supervision. Keep children away during use to prevent injury.
- Carry out regular inspections and maintenance of the electrical and mechanical components to ensure safety.
- To ensure functionality, do not use the desk in combination with incompatible furniture or accessories.
