Safety Instructions:

- Choking hazard due to small parts if handled or assembled incorrectly.
- Risk of electric shock due to improper use of electrical components.
- Risk of injury due to collision with objects or when adjusting the table height.
- Note maximum load capacity: 100 kg static, 60 kg dynamic.
- Place the table on a stable, level surface and use floor levelling screws.
- Electric height adjustment may only be operated by adults, keep children away.
- Read the operating instructions carefully and follow them.
- Lay cables safely, prevent tripping hazards.
- Keep obstacles away from the adjustment range of the electrical mechanism.
- Contact the manufacturer in the event of technical faults or uncertainties.
- Use only on paved floors to ensure stability.
- Avoid using the table in high humidity or direct sunlight.
- Check electrical components regularly for safety.
