Safety Instructions:

- Ensure that the container is transported stably and safely to prevent injuries.
- Take care when handling liquids to avoid the risk of leakage or spillage.
- If used improperly, the outlet valve may leak, which can lead to dangerous situations.
- Observe temperature and weather protection to prevent damage to the container and its contents.
- Only fill with suitable and authorised liquids to avoid chemical reactions or health risks.
- Carry out regular inspections to detect cracks or other damage to the container.
