Safety Instructions:

- Before using the IBC container, ensure that it is suitable for the intended type of liquid.
- The container must not be used for the transport of hazardous chemicals unless it is authorised for this purpose.
- Check the tightness of the outlet valve before use to prevent leaks.
- Only move containers with suitable lifting and transport systems to avoid injuries.
- Do not exceed the maximum capacity of 600 litres.
- Ensure proper disposal of the liquids stored in the container.
- Protect containers from excessive heat and direct sunlight to prevent material degradation.
- Ensure that the container is not placed near sources of ignition.
- Make sure that the container does not tip over when it is being filled or emptied.
- Only use the container for the intended liquids to avoid chemical reactions.
- Ensure that the outlet valve is properly closed to prevent liquids from leaking.
- The container is heavy. Provide suitable lifting aids if it needs to be moved.
- Keep the container protected from direct sunlight and extreme temperatures.
- Read the enclosed safety instructions and instructions for use carefully before using the appliance for the first time.
