Safety Instructions:

- The appliance may only be operated in well-ventilated rooms to avoid overheating.
- Avoid direct exposure to water or other liquids to prevent electrical damage.
- The monitor should be positioned at least 30 cm away from walls and other objects to ensure adequate air circulation.
- Make sure that all cables are securely routed to avoid tripping hazards.
- The appliance is designed for continuous operation, but please note the maximum operating hours as specified in the product guide.
- Regular inspection of the electrical connections and cables for wear or damage is recommended.
