Safety Instructions:

- Ensure that the monitor is used in well-ventilated rooms to avoid overheating.
- Avoid direct sunlight on the screen to reduce overheating and reflections.
- Ensure that the connection cables are securely connected to avoid short circuits.
- Do not leave the appliance unattended during operation so that you can react quickly in the event of a fault.
- Check regularly for visible damage to the appliance or cables before using it.
- There is a risk of injury due to improper transport or lifting of the appliance - at least two people should help.
