Safety Instructions:

- Choking hazard due to small parts - Keep product away from small children to avoid choking hazard.
- Risk of electric shock - Only allow adults to operate the appliance and ensure that electrical components are properly installed and not damaged.
- Use only on level floors and with correctly adjusted floor levelling screws to prevent instability or tipping over.
- Maximum dynamic load capacity: 60kg; maximum static load capacity: 100kg - These limits should not be exceeded.
- Only use the height-adjustable mechanism within the intended height adjustment range and in accordance with the recommended safety instructions.
- Ensure that all cables, connections and adjustment mechanisms are secure and not blocked to avoid the risk of tripping and injury.
- Before use, make sure that the table top is correctly mounted to ensure stability.
- Ensure that no body parts or objects are trapped in the adjustment range.
- Children must not use the table unsupervised, especially during height adjustment.
