### Safety Instructions:

- Do not use the desk if the height adjustment is damaged and ensure that all screws and parts are correctly fitted to ensure stability.
- The desk must be placed on a stable, level surface to prevent it from tipping over. Use the levelling screws to ensure stability on uneven floors.
- Children should only use the desk under adult supervision and should be kept away from moving parts to avoid injury.
- Please note that manual height adjustment should only be carried out by persons who are familiar with the operating instructions in order to avoid crushing and injuries. The adjustment should be carried out carefully.
- Avoid overloading the tabletop, do not exceed the maximum load capacity and do not place heavy objects on the tabletop to prevent breakage or instability.
- Make sure that no parts of the body, especially fingers or feet, are trapped when lifting or lowering.
- The desk should not be used as a ladder or for unintended purposes in order to minimise the risk of accidents.
- Regularly check the stability and all mechanical parts of the desk for wear or damage.
- Do not use the desk near sources of heat or moisture to avoid material deformation or damage.
- Ensure that all cables and electrical accessories are properly routed to avoid tripping hazards.
- Read the installation and operating instructions carefully to ensure correct use. Assembly should only be carried out by adults.
