Safety Instructions:

- Ensure that the cabinet is locked to prevent unauthorised access.
- Avoid liquid and aggressive cleaning agents so as not to damage surfaces.
- Take safety precautions during installation and transport to avoid injury.
- Only use the cabinet for its intended purpose in order to avoid damage.
- Regularly check hinges, locks and door mechanisms for proper functioning and security.
- The cabinet should stand securely on a stable and level surface to prevent it from tipping over.
- Avoid overloading the shelves and compartments to prevent damage.
- Children should only use the cabinet under supervision to avoid injury.
- Pay attention to sharp edges and corners when handling to prevent injuries.
- Select a vandal-proof use and location to prevent damage.
- Carry out regular inspections for rust, corrosion and general damage.
- The product should be used strictly in accordance with the manufacturer's instructions in order to minimise safety risks.
- Air inlets must not be blocked to ensure ventilation.
- In extreme temperatures, take appropriate measures to ensure material integrity.
- Do not exceed the maximum load capacity of the compartments to avoid damage and instability.
- The cabinet is not intended for children; supervision is required when used by minors.
