Safety Instructions:

- The product should contain clear user instructions and safety information.
- Ensure that there are no sharp edges or dangerous corners to prevent injuries.
- Caution: Sharp edges can cause injuries during installation. Handle with care.
- The locker should be stable and securely anchored to prevent it from tipping over, especially in public or heavily frequented areas.
- The maximum load capacity and recommended use of the product should be clearly communicated to avoid overloading.
- Carry out regular inspections for damage and wear and tear and repair or replace if necessary.
- Avoiding overloading: Observe maximum capacity, especially for coat rails and doors.
- Limit door opening to a maximum of 80 degrees to avoid collisions and damage.
- Take care when opening the door: keep a safe distance from other objects.
- Use with caution around children; the product is not intended as a toy and should be kept out of reach of children under 12 years of age.
- Do not use aggressive cleaning agents to avoid damaging the stove enamelling.
- Check the adjustment of the product regularly to ensure strength and stability.
- The locker should be used for the intended storage and should not be overloaded to ensure stability.
- Clean regularly to prevent rust and unpleasant odours.
- Follow the assembly instructions carefully and ensure that all parts are correctly assembled to ensure stability and safety.
- Protect the product from direct sunlight to avoid UV damage.
- Do not make any unauthorised changes to the product, as this may impair safety.
- Ensuring security against vandalism, especially in public places.
- The product should be disposed of in accordance with local regulations for electrical and electronic equipment.
- The product is intended for use by adults to avoid improper use and potential damage.
