Safety Instructions:

- Avoid moisture and direct heat to prevent material damage; suitable for dry environments, do not use outdoors.
- Ensure that the locker is placed on a stable, level surface to prevent it from tipping over.
- Use the doors carefully; avoid excessive pressure to prevent damage and injury; observe maximum door opening of 80 degrees.
- The locker is not suitable for excessively heavy or flammable materials; avoid overloading to ensure structural stability.
- Children should only use the locker under supervision, not suitable for children under 3 years due to small parts.
- Attach and install the locker correctly in accordance with the instructions and secure to the wall if necessary to ensure stability and safety.
- Pay attention to sharp edges and corners to avoid injuries.
- Carry out regular maintenance and safety inspections to ensure safety and functionality.
- Do not climb or sit on the top edge and store heavy objects in the lower area to ensure stability.
- Avoid impact and shock damage, as this can impair the structure.
- Regular inspection of locks and mechanisms to ensure functionality and security.
- Suitable use only in environments designed for this purpose (offices, workshops, schools, sports facilities) for appropriate use.
- Avoid chemical substances or extremely high temperatures to maintain safety.
- Only use recommended accessories such as locks, snake and suspension systems to ensure safety.
