Safety Instructions:

- Caution: The drip tray is approved for the storage and filling of flammable and water-polluting liquids of GHS categories 1-4.
- Make sure that the drip tray is only used on solid ground to prevent it from tipping over.
- Make sure that the maximum load of 4 x 60 litres is not exceeded.
- Use personal protective equipment when handling hazardous liquids.
- Read the manufacturer's instructions carefully before use.
- Carry out regular checks for damage or corrosion.
