Safety Instructions:

- The maximum dynamic load capacity is 60 kg, do not exceed this to avoid structural damage or injury.
- The desk must be placed on a stable and level surface to prevent it from tipping or falling over.
- The crank adjustment should only be operated by adults to avoid injury.
- Children should be supervised when using the desk and kept away from mechanical parts and small parts to avoid the risk of suffocation.
- Ensure that the table is correctly assembled in accordance with the enclosed instructions to ensure stability and safety.
- The crank should be operated in a safe manner to avoid the risk of crushing; do not use tools.
- The desk must not be used near water or in damp environments in order to avoid electrical hazards.
- All parts should be checked for completeness and damage during assembly and use.
- Avoid placing sharp or heavy objects on the tabletop to prevent damage.
- The optional roller set should only be used on smooth, level surfaces.
- All safety and installation instructions should be included with the product and read before use.
- Regularly check all screw connections and the stability of the construction.
