Safety Instructions:

- Tested for harmful substances in accordance with OEKO-TEX® STANDARD 100.
- The table divider should be securely mounted to prevent it from tipping over and avoid injuries.
- Do not set up near fire or heat sources to prevent damage.
- If the table partition is damaged, it should no longer be used and should be checked regularly for damage.
- Avoid contact with sharp objects to prevent damage to the material.
- Ensure that the table divider is stable and securely attached to the tables to prevent it from becoming a source of danger.
- Avoid contact with water and moisture to prevent damage to the PET felt.
- No special safety precautions are required for children as the product is not designed for children. Especially not suitable for children under the age of 3, as it may contain small parts.
- The table partition is only intended for indoor use.
- Use in accordance with the manufacturer's instructions to ensure safety.
