Article Numbers: 662636, 662634, 662632, 662631

Safety Instructions:

- The product is only suitable for indoor and outdoor use, but should not be used in direct sunlight.
- Requires full compliance with local safety regulations during installation.
- The electrical safety standards must be observed during installation and maintenance.
- The connection cable must be undamaged to ensure safe operation.
- Avoid contact with water during installation and if accessories are damaged.
- Use at extreme temperatures below -20°C or above 40°C may impair performance.
- When installed outdoors, the product must be protected from physical and chemical influences.
- For safe operation of the LED spotlight, ensure that the electrical connection cable is undamaged.
- Proper installation and outdoor protection are crucial.
- The manufacturer's instructions for installation must be followed carefully in order to avoid electric shocks.
- The product must be installed by specialised personnel to rule out safety risks.
- The operating ambient temperature must not exceed the temperature specified by the manufacturer.
- Regular inspection for visible damage to the housing is necessary to ensure functionality and safety.
- Caution: Not suitable for use in water, as despite water resistance it is not designed for permanent contact.
- Risk of electric shock: Only operate with the intended voltage.
- Use only in accordance with the intended application and instructions in order to minimise the risk of injury.
- Keep the product out of the reach of small children for child safety.
- Avoid looking directly at the LED source to prevent eye injuries.
- Observe water resistance according to IP66; housing must remain intact.
- Before connecting, ensure that the power supply is de-energised.
- Use only in accordance with the instructions and specifications provided.
