### **Safety Instructions:**

- Make sure that the shelving system is correctly assembled and stable to prevent it from tipping over.
- Avoid overloading the shelves beyond the maximum shelf load of 140 kg.
- The shelf combination should be used in accordance with the recommended assembly instructions.
- Keep the shelf dry to prevent rust formation with materials containing harmful substances.
- Use the optional rear wall elements for additional stability and as room dividers.
- During assembly, ensure that all parts are tightened to avoid noise and instability.
- Prevent children from accessing the shelf and the items it contains to avoid injury.
