Safety Instructions:

- Install and use in accordance with the manufacturer's instructions.
- Suitable for the storage of hazardous substances; observe the relevant regulations.
- Use the earthing connection on the outside of the cabinet to avoid ignition hazards due to electrostatic charging.
- Self-closing doors activate automatically in the event of a fire to minimise the risk of fire spreading; offer additional safety in the event of a fire hazard.
- Carry out regular maintenance of the cabinet to ensure safety and functionality.
- Only use accessories and materials that are approved for use in the cabinet.
- Check the cabinet regularly for damage and functionality.
- Fire resistance of 90 minutes, therefore safe to store in case of fire.
- Observe the 2-point locking mechanism to ensure access protection.
- Install height-adjustable feet and removable plinth panel for stability and flexibility.
- Keep the DN75 vent opening for connection to technical ventilation in accordance with the applicable standards.
