Safety Instructions:

- Observe the maximum shelf load of 60 kg per shelf to avoid overloading and unstable conditions.
- Store small parts out of the reach of children as there is a choking hazard. Product is not suitable for children under 3 years of age.
- Do not overload the shelf and do not place it under overhanging objects to ensure stability and avoid the risk of injury.
- Safe assembly and use to prevent falls. Follow the assembly instructions exactly.
- Check for damage and repair or replace the shelf if necessary.
- Avoid moisture to prevent corrosion of the metal construction.
