Safety Instructions:

- Use the 25 mm floor leveller on uneven floors to ensure stability.
- Observe the maximum load capacity of the shelves to avoid overloading and damage.
- The cabinet should be set up stably and correctly to prevent accidents.
- Place the cabinet on a stable, level surface to ensure its safety.
- Ensure that heavy objects are placed securely on the shelves to prevent them from tipping over.
- Children should be kept away to prevent injury.
- Securely fasten the cabinet to the wall to prevent it from tipping over.
- Check shelves regularly for stability and condition.
- Avoid storing flammable or explosive materials in the cupboard.
- Protect the cabinet from fire and moisture.
- Provide clear instructions for safe use and installation.
- Observe additional safety measures for heavy loads.
- Do not use the shelving unit as a ladder or step.
