Safety Instructions:

- Do not open the doors beyond a maximum opening angle of 110°.
- Keep the ventilation holes in the base clear to ensure good air circulation.
- Do not exceed the maximum loads of the shelves (100 kg) and the entire appliance (450 kg).
- Use the cylinder lock to prevent unauthorised access.
- Place the cabinet on a secure, level surface and use the floor levelling function of 25 mm for uneven floors.
- Ensure safe handling when inserting the shelves to avoid injury.
- Check the stability of the cabinet before use, especially on uneven floors.
- Keep the installation site dry to prevent rust from forming.
- If necessary, apply a protective treatment for painted surfaces.
- Avoid chemical cleaning agents that could damage the powder coating.
- The cabinet is not suitable for outdoor use; protect it from the weather.
- Only use the cabinet for its intended purpose and follow the assembly instructions.
- If you have any questions or uncertainties, please contact the manufacturer.
