Safety Instructions:

- Store heavy objects evenly and observe the maximum load capacity (450 kg) to ensure stability.
- Place the cabinet on a stable, level surface; if the floor is uneven, use 25 mm floor levelling to prevent it from tipping over.
- Avoid overloading and observe the maximum load capacity of the shelves (250 kg).
- Open and close doors slowly to avoid injury; lock properly to prevent unauthorised access.
- Check the lock and doors regularly to ensure that they are working properly and to guarantee security and access control.
- Avoid moisture and heat sources to prevent rust and material damage; keep ventilation holes clear.
- Only install and use in accordance with the instructions to ensure stability and safety.
- Keep out of reach of children; not suitable for child-resistant use.
- Check the cabinet for packaging materials and remove them before use.
- If the product is damaged, contact the manufacturer and do not use it.
