Article Numbers: 402759, 402757, 402756, 402755, 402752, 402751, 402749, 402747, 402746, 402745, 402742, 402741, 402739, 402737, 402736, 402735, 402732, 402731

Safety Instructions:

- Risk of suffocation due to improper handling of heavy objects or small parts. Ensure that tools are stored safely and always used in accordance with the instructions.
- Risk of injury due to improper handling, especially of the (casement) doors and sharp edges. Ensure safe handling when opening and closing the doors.
- Do not exceed the maximum load capacity of the shelves to avoid structural damage and injury. Specific loads: Shelves: max. 250 kg, total load: 450 kg.
- Ensure that the cabinet is standing on a stable and level surface to prevent it from tipping over. If the floor is uneven, take suitable measures to ensure basic stability, e.g. levelling the floor by 25 mm.
- Use the cylinder lock to prevent unauthorised access. Regularly check the security properties of the lock and the mechanisms.
- Check the product regularly for stability, damage and wear. In the event of visible damage, discontinue use and contact the manufacturer.
- Use the cabinet only for the intended applications and install and use it in accordance with the manufacturer's instructions.
- Make sure to distribute heavy tools or objects evenly to prevent the cabinet from tipping over.
- The cabinet is not suitable for storing flammable or hazardous substances. Protect the cabinet from extreme temperatures and moisture to prevent material damage.
- Ensure that children only have access to the cabinet under supervision to avoid injury.
- Make sure that the ventilation openings in the plinth are not blocked to ensure optimum air circulation.
