Safety Instructions:

- Safe use is only guaranteed on a level surface to prevent tipping. Ensure that the cabinet is stable.
- Do not exceed the maximum load capacity of up to 450 kg to avoid structural damage or accidents.
- Drawers have a maximum load capacity of 50 kg and shelves of 100 kg. Avoid overloading to prevent failure.
- Be careful when opening and closing the heavy hinged doors to avoid injury.
- Ensure safe storage of materials with lockable doors. Only use the keys included in the scope of delivery for security and keep other keys in a safe place.
- Avoid overloading the drawers when they are fully extended to prevent them from jamming.
- Take care with sharp or pointed tools inside the cabinet and when handling heavy objects.
- Choking hazard due to small parts: Store small parts safely and keep them out of the reach of children.
- Risk of falling if the shelves and drawers are incorrectly loaded.
- Use only under the supervision of persons with knowledge of safety and ergonomics.
- Check the protective devices of the lock to prevent unauthorised access. The product is for commercial use and should be kept out of the reach of children.
- During assembly, ensure that all parts are correctly installed.
