Safety Instructions:

- The product should only be used for its intended purpose.
- It is intended for use by adults or should be used under supervision, as children under 3 years of age should not handle it due to the risk of suffocation.
- Ensure a stable stand on level ground, observe the levelling system on uneven ground to prevent tipping.
- Warned against overloading the spindle as specified in the manual to prevent loss of stability.
- Use cylinder locks, security twist locks or padlocks with shackle thicknesses between 6-8 mm to prevent unauthorised opening.
- The doors should not be overstretched (maximum 90 degrees) to avoid damage.
- Check and lubricate cylinder locks regularly to ensure functionality; keep keys safe.
- Ensure that the ventilation openings are not blocked to ensure air circulation.
- Sharp-edged parts can cause injuries, so take special care when handling.
- Do not use the locker in damp, wet environments or in direct sunlight to avoid damage.
- Make sure that the locker is kept dry to prevent rust and corrosion.
- The locker must be protected from floor damage by suitable floor gliders.
- Risk of crushing if the doors are closed incorrectly should be avoided.
- During assembly, ensure that all parts are fully and firmly attached to prevent injury.
- Compliance with all safety and maintenance instructions and regular checks for malfunctions and damage.
- Keep security certificates for burglary protection.
