Safety Instructions:

- Before use, ensure that the clothes locker is stable and secure, especially on uneven floors by levelling it.
- Make sure that all parts are properly assembled and all screws are tightened to ensure stable use.
- Avoid overloading the cabinet and doors to prevent tipping or damage.
- Make sure that the doors are not opened beyond their maximum opening angle of 90 degrees to avoid damage.
- Keep small parts and accessories safely stowed away and away from children to avoid choking hazards.
- Only use the product in accordance with the manufacturer's instructions and protective measures.
- Do not use aggressive cleaning agents to protect the surface coating.
- Do not block the integrated ventilation openings to ensure optimum air circulation.
- Ensure that the floor glides or floor protectors are correctly installed to prevent damage to the floor and stability of the cabinet.
- Be aware of the risk of injury due to improper use of locks and latches.
- Keep hazardous materials (such as fire) away from the product.
- The product should not be used as a seat to avoid the risk of falling.
- Instruct on safety measures when handling the locker, including the use of the floor glides to protect the floor.
- Warning of sharp edges; be careful during use and especially during assembly.
- Observe the maximum load capacity of the product to avoid structural damage.
- Ensure that children do not interact with the locker unsupervised, as it is not a children's product.
