Safety Instructions:

- Observe break-open protected construction according to level C of DIN 4547 and use safely.
- Caution: Sharp edges can cause injuries. Use with caution.
- Secure the use of cylinder locks or security turnbolts by selecting and handling the correct key.
- Do not exceed the maximum load per compartment and avoid overloading to prevent damage.
- Use the levelling device for installation on uneven ground and ensure correct adjustment.
- Ensure stability by placing the locker on a stable, level surface and avoiding door overstretching.
- Carry out regular checks for damage or wear to maintain the functionality of the locker.
- Children should only use the locker under supervision to avoid risks due to improper use.
- Use suitable, non-aggressive agents for care and cleaning so as not to damage surfaces.
- To avoid corrosion, avoid using the device in inappropriate environmental conditions (e.g. moisture).
- Use soft stops and door opening protection to prevent injury or damage.
- Keep ventilation openings clear to ensure ventilation and prevent damage from moisture.
- Make sure that no small parts are left unattended to minimise the risk of choking.
- Only use the product in dry indoor areas and avoid direct heat sources.
- If the keys are lost, ensure that the lock is replaced immediately.
