Safety Instructions:

- Choking hazard due to small parts; do not leave children unattended and place the locker out of reach of children.
- Risk of injury from sharp edges or corners; sharp objects should not be stored in the locker.
- Ensure that the doors are not overstretched to prevent damage and injury. Use the door opening limiter.
- Place the locker on a stable, level surface to prevent it from tipping over or wobbling. Avoid uneven surfaces.
- Regularly check the connections, screws and the overall stability of the locker to avoid safety defects.
- Children should not use the locker as play equipment; supervision is required, especially when children are in the vicinity.
- The bench underneath should be used with care and should not be overloaded; use by a suitable person is recommended.
- The locker should be kept dry and protected from water and extreme temperatures to prevent corrosion.
- Avoid use in areas with a high fire risk, such as sports environments.
- Only use original keys and locks or those recommended by the manufacturer to prevent unauthorised access.
- Keep the ventilation openings clear to ensure optimum air circulation and prevent mould growth.
- Carry out installation and assembly in accordance with the instructions to avoid instability or damage.
- Clean regularly with suitable cleaning agents to prevent surface damage.
- Take care when handling the doors and the seat bench to prevent injuries when closing or falling.
- The product is not suitable for children under 3 years of age.
- If damage or problems occur, contact the manufacturer instead of carrying out repairs yourself.
