Safety Instructions:

- Choking hazard due to small parts (e.g. label frame) - Product is not suitable for children, supervision required.
- Ensure that door opening restrictors are used correctly to avoid overstretching and possible injury.
- Ensure stability: The cabinet must be placed on a level surface to prevent it from tipping over.
- Before use, ensure that the cabinet is stable and properly installed.
- Take care to avoid sharp edges to minimise the risk of injury.
- Only use suitable locks (shackle thickness 6 to 8 mm) for security turnbolts to prevent unauthorised access.
- Avoid overloading the shelves to prevent breakage or damage.
- Keep the cabinet away from moisture and extreme temperatures to prevent corrosion and material deformation.
- Carry out regular inspections and maintenance to ensure proper functionality and safety.
- Do not use the product in the immediate vicinity of heat sources to avoid damage.
- Carefully read and follow all instructions for installation and use.
- Wear suitable personal protective equipment when assembling and transporting heavy parts.
