Safety Instructions:

- Avoid overloading the pallet beyond the maximum load capacity of 1500 kg.
- Ensure that the pallet is placed on a level surface to prevent it from tipping over.
- Use suitable industrial trucks to transport the pallet.
- Safety instructions must be observed to avoid injuries during handling.
- Keep the pallet away from areas exposed to heat and moisture to prevent damage.
- Risk of suffocation due to improper handling of heavy loads
- Risk of crushing or injury due to improper handling of the pallet
- Instructions for correct stacking and storage to prevent tipping or instability.
