Safety Instructions:

- High load capacity: Observe the maximum weight of 1500 kg to avoid overloading. Please only use industrial trucks that are suitable for this purpose.
- Safe handling: Only transport with suitable industrial trucks and ensure that the load is evenly distributed.
- Risk of injury: Improper use may result in injury. It is your responsibility to follow the safety instructions.
- Risk of slipping: Ensure stable and flat surfaces when loading and unloading.
- Protection when lifting: Carry out safety training for employees regarding the safe lifting of heavy loads.
- Take care when lifting: The pallet has a high weight of up to 34 kg. Wear suitable safety clothing and equipment.
- The pallet is not suitable for transporting dangerous goods. Observe local regulations for the storage and transport of goods.
