Safety Instructions:

- Cutting tools have sharp edges. Wear protective gloves, safety goggles and suitable protective equipment to avoid cutting injuries.
- The machine and the core drill must be compatible and correctly assembled. Check for damage before use and do not use defective parts.
- Keep the workplace clean and free of foreign objects and children to avoid accidents. No contact with rotating parts and no loose clothing or jewellery in the area of the drill.
- Only use for intended materials and applications. Pay attention to the maximum cutting depth and operating parameters to avoid overloading.
- Store the tool safely, dry and out of the reach of children.
- Before use, ensure that all safety instructions and operating instructions from the manufacturer are followed. Observe the safety instructions to avoid injury.
- Only allow trained personnel to handle the drill. Keep children and unauthorised persons away during operation.
