Safety Instructions:

- Warning of possible danger from electric shock if handled incorrectly.
- Draw attention to the risk of suffocation due to loose parts or small parts during operation.
- Note that the machine is stabilised by its magnetic base and can fall over if used incorrectly.
- Users are advised to wear safety goggles and hearing protection to avoid injury during operation.
- Ensure that the machine is only used in the intended area of application and that the operating instructions are read before commissioning.
