Safety Instructions:

- Wear safety goggles to ensure safe use of the core drill.
- Ensure that the work area is free of obstacles to avoid tripping hazards.
- Observe all safety precautions and operating instructions before commissioning.
- Keep the machine away from unauthorised persons, especially children.
- In the event of a power failure, switch off the machine immediately and disconnect it from the power supply.
- Disconnect the mains plug during maintenance or when replacing tools.
- Prohibited use of the machine without protective devices is prohibited.
- There is a risk of electric shock if handled incorrectly.
- Take the exact material thickness and condition into account when drilling.
- Never overload the machine or use it beyond its specifications.
