Safety Instructions:

- Always wear suitable protective equipment such as safety goggles and gloves to avoid eye and skin injuries from sharp edges and chips.
- Keep the tool out of the reach of children to prevent injury.
- Only use the tool for its intended purpose and observe the operating instructions and safety instructions.
- Ensure that the drill bit is securely and correctly mounted in the machine to prevent slipping or tool breakage.
- Use only by specialised personnel or trained persons to avoid improper use.
- Keep the work area clean and organised to avoid accidents such as tripping or falling.
- Avoid direct contact with the cutting edge during operation and keep hands and body away from the working area.
- Ensure that the machine and tool used are compatible to ensure safe operation.
- Store the tool in a safe place and check it for damage before each use.
- Always ensure a stable and safe working environment when using machines.
- Do not use excessive force to prevent material damage and tool breakage.
- Only use the machines and accessories recommended by the manufacturer to avoid safety risks.
- Safety precautions and operating instructions must be followed to minimise accidents.
- When drilling, ensure that the workpiece is fixed correctly to avoid dangerous kickbacks.
