Safety Instructions:

- Always wear safety goggles and gloves to avoid eye injuries and hand injuries.
- Do not work with a radial offset to prevent the drill bit from jamming.
- Only use the tool in machines intended for this purpose and in accordance with the operating instructions.
- Ensure that the drill bit is correctly secured in the drill chuck to prevent it from spinning.
- Store the drill in a safe, dry place out of the reach of children.
- Keep product away from children; not suitable for children under 3 years of age.
- Do not use the tool in damp environments to reduce the risk of electric shock.
- Take appropriate health protection measures such as respiratory and eye protection.
- Make sure that the drill bit is suitable for the respective material to avoid overheating and damage.
- Avoid working in the vicinity of flammable materials.
- Keep the work area clean to avoid tripping hazards.
- Only use the drill bit for the intended materials and types of application.
- Ensure the stability of the workpiece to prevent it from slipping.
- Excessive pressure can cause the drill bit to break.
- Read and follow the operating instructions carefully before use.
- Disconnect the tool from the power supply before cleaning or replacing it.
- Observe safety precautions and follow the instructions for using the drill to avoid injury.
- Check the drill bit for damage before use.
- Improper use can lead to injuries.
- Suitable for use only with appropriate power tools.
