Safety Instructions:

- Not suitable for contact with food.
- Ensure that the tools are fully assembled before use.
- Wear safety goggles and protective gloves to avoid injuries from metal chips and sharp edges.
- Do not overtighten the drill bit to avoid damaging the material and appliance.
- Use splash guards to reduce injuries caused by flying chips.
- Ensure that the drill is guided evenly and without excessive pressure.
- Sharp edges of the drill bits require caution.
- The safety data sheets must be observed when using the cutting paste.
- Do not use in the vicinity of flammable materials.
- Keep the drill out of the reach of children. Caution: Sharp blades - risk of injury!
- Not suitable for children - risk of injury due to improper use.
- Use the cutting paste according to the instructions to extend the service life of the tools.
- Before use, ensure that the materials are properly secured to prevent them from slipping.
