Safety Instructions:

- Not suitable for children under 3 years of age as small parts may be present.
- The product is not suitable for use by children, risk of injury.
- Follow the safety instructions for the correct use of the drill to avoid injury.
- Read the operating instructions before use and follow the instructions.
- Adjust the speed of the drill bit to the material to avoid overheating and damage.
- Always use suitable protective equipment, e.g. safety goggles and hearing protection, during use.
- The use of protective equipment such as safety gloves and safety goggles is recommended.
- Caution: Sharp tool, risk of injury due to improper handling.
- Always stop the drilling parts before changing to avoid injury.
- Do not overload the product or use excessively high speeds to avoid damage.
- Ensure that no parts of the body enter the working area.
- The product may have sharp edges. Take care when handling.
- Only use the tool in conjunction with compatible devices.
- If the product malfunctions, take it out of operation immediately and have it checked.
- Ensure that the drill bit is firmly seated in the drill chuck to prevent it from slipping.
- Only use the drill bit for the intended materials and specified diameters.
- Keep hands and other parts of the body away from the drilling site during operation.
- Check the drill bit regularly for wear or damage and replace it if necessary.
- Store the drill in a safe place out of the reach of children.
