Please note the technical data of the products!

Article Numbers: 708478, 708477, 708476, 708474, 708473, 708472, 708471, 708470, 708469, 708467, 708466, 708465, 708464, 708463, 708462, 708460, 708459, 708458, 708457, 708456, 708455, 708453, 708452, 708451, 708450, 708449, 708448, 708446, 708445, 708444, 708443, 708442

Safety Instructions:

- Use suitable protective equipment, including safety goggles, gloves and hearing protection, to avoid injury during operation.
- Keep the drill away from children to prevent the risk of injury.
- Secure the drill correctly in the machine to prevent it from slipping or falling out during use.
- Only use the drill bit with suitable machines and in accordance with the manufacturer's instructions.
- Keep the work area clean and free of obstacles to minimise the risk of tripping and accidents.
- Before use, ensure that the drill bit and the tool are checked for damage and correctly assembled.
- Follow the operating instructions and the manufacturer's safety instructions carefully.
- Only use the drill bit for the intended materials and applications.
- Ensure safe handling and avoid direct contact with sharp edges and rotating parts.
- Avoid proximity to flammable materials to prevent the risk of fire due to sparking.
- Ensure that the drill can cool down if it overheats in order to avoid damage and material fatigue.
- Protect your eyes and hearing while drilling with the correct protective equipment.
- Ensure that the machine is switched off and disconnected from the power supply before carrying out maintenance work in order to avoid hazards.
- Only use in approved magnetic drills to ensure safety.
