Article Numbers: 708485, 708484, 708483, 708481, 708480, 708479

Safety Instructions:

- Ensure safe use when processing hard materials.
- Use personal protective equipment (PPE), such as safety goggles and hearing protection, to protect your eyes and ears from chips and noise.
- Safety instructions: Wear safety goggles and hearing protection, interrupt the work process if the drill bit overheats.
- Caution: Sharp edges, wear gloves when handling.
- Only use with suitable machines that ensure safe handling. Do not use your own equipment.
- Read the operating instructions carefully before commissioning.
- Do not use in cooled or extremely hot environments.
- If the drill bit is damaged, do not continue to use it.
- Keep out of reach of children.
- Secure the workpiece before drilling to prevent movement and injuries due to slipping.
- Keep hands and other parts of the body away from the drilling zone while the drill is in operation.
- Avoid contact with the drill tip after drilling.
- Before using the core drill, ensure that the machine is properly maintained.
- Protect the product from moisture to prevent corrosion.
- Observe the specified operating conditions.
- Use suitable protective gloves to prevent injuries from sharp edges or hot surfaces.
- Only use the tool in accordance with the instructions and for the intended purpose.
- Only use this drill bit for the intended materials: unalloyed and alloyed steels as well as tough brass types.
- You should be aware that using the drill can cause skin, eye and respiratory tract irritation, so careful handling is required.
