Please note the technical data of the products!

Article Numbers: 709235, 709234, 709233

Safety Instructions:

- Keep cable ties out of the reach of children. Not suitable for children under 3 years of age due to choking hazard from small parts.
- Choking hazard due to improper use or swallowing of small parts. Beware of choking hazard due to small parts.
- Avoid improper use of cable ties to prevent injury. Use the product in accordance with the instructions to prevent mechanical injuries.
- Observe high tensile load (max. 220 N). Do not load cable ties beyond their specified tensile loads. Not suitable for applications that exceed the specified load.
- Only use the product in well-ventilated areas to avoid overheating.
- Observe the temperature limits of the material (polyamide 6.6) under extreme conditions. Avoid use at temperatures outside the specified range to prevent material failure.
- Do not use near naked flames or excessive heat to avoid the risk of fire. Use in high-voltage areas or at very high temperatures could impair safety.
- Check the integrity of the cable tie before use to ensure that it is not damaged.
- Ensure that the cable ties are not used by children or as toys.
