

Product Safety Information

Cable ties

Manufacturer/Responsible Person: neko Vertriebsges. f. Werkzeuge u. elek. -tech., Hartkopsbever 1, 42499 Hückeswagen, Deutschland

E-Mail: info@myneko.de

Please note the technical data of the products!

Article Numbers: 709250, 709249, 709248, 709247, 709246, 709245, 709243, 709242, 709241

Safety Instructions:

- Store safely as there is a risk of suffocation from small parts. Not suitable for children.
- Do not use the product near fire or high temperatures to minimise the risk of fire. Observe temperature range: -40°C to +85°C.
- Before use, ensure that the cable ties are in perfect condition and that the maximum tensile load is not exceeded (specified as 80N and 220N).
- Avoid improper use to prevent the risk of injury from sharp edges or overloading. Take particular care against electric shock in electrical applications and damp environments.
- When handling chemical substances, avoid contact with skin and rinse thoroughly with water, consult a doctor if necessary.
- Keep cable ties away from small children to prevent the risk of suffocation.
- Avoid long-term contact with water, despite UV stabilisation, to prevent material deterioration.
- Product unsuitable for contact with food.
- Secure storage required to avoid mechanical damage and deformation.
- Follow instructions for safe use and installation to prevent sudden breakage or failure.
- Avoid direct sunlight to prevent material fatigue.
