Article Numbers: 709268, 709267, 709266, 709264, 709263, 709262

Safety Instructions:

- Keep the hook and loop fastener out of the reach of children as there is a risk of suffocation from small parts. Not suitable for children under 3 years of age.
- Only use the hook and loop fastener in accordance with the specifications and instructions provided to avoid injury and damage.
- Regularly check the condition of the hook and loop fastener for damage or wear, especially if it is used frequently, to ensure safety.
- Maximum temperature resistance of the product is -40 °C to +85 °C to avoid material fatigue. Do not use at temperatures outside these ranges.
- Ensure that the product is used on a dry, stable surface to prevent it from slipping or falling over.
- Take care when using on sharp edges or other dangerous surfaces.
- Observe maximum tensile load: 260N. For another model, do not exceed 150N to avoid breakage or injury.
- Do not use near open flames or extreme temperatures as there is a risk of fire.
- Protect the product from sharp edges and heat sources to prevent material damage.
- Do not use near water or damp environments to avoid the risk of electric shock.
