

Product Safety Information

Knee pads KevSafe KNEETEK

Manufacturer/Responsible Person: KNEETEK GmbH, Auf der Kaiserbitz 3, 51147 Köln, Deutschland

E-Mail: info@kneetek.de

Please note the technical data of the products!

Article Number: 703477

Safety Instructions:

- For maximum safety during use, always wear the knee pads in accordance with the manufacturer's instructions.
- Avoid contact with hot surfaces or naked flames, even if the knee pads are heat-resistant up to 1300 °C.
- The knee pads are not suitable for children as they are specially designed for use by adults.
- Check the knee pads regularly for damage or wear. If they are visibly damaged, they should no longer be used.
- The knee pads are suitable for working in environments with flying sparks or welding spatter, but make sure that they fit correctly and securely.
