Safety Instructions:

- Safety helmet designed for commercial use only.
- Observe the applicable safety standards in accordance with EN 397.
- Fit the helmet correctly for safe protection; ensure that the helmet fits properly and that the straps are correctly adjusted.
- Before use, ensure that the helmet is not damaged, as visible damage could impair the protective function.
- The helmet may only be used in temperatures down to -30°C; take particular care in extreme temperatures or below -30°C.
- Regular inspection of the helmet and checking for cracks, deformations or other damage is recommended.
- When fitting accessories (e.g. hearing protection), ensure compatibility; hearing protection must be compatible with the side slots of the helmet.
- Do not use if the helmet is visibly damaged.
- Regularly check the correct fit and condition of the harness and helmet shell.
- Avoid exposure to cold temperatures below -30 °C if the helmet is not designed for this.
- Keep the helmet away from chemicals and sharp objects to prevent damage.
- Only use the safety helmet for its intended purpose.
- If used over a longer period of time, take regular breaks.
- Do not work with a damaged helmet; in the event of improper use or damage, take the helmet out of service immediately.
- Read the instructions for use before first use and follow the instructions for safe use and disposal of the helmet.
- Before use, check that the head circumference is between 51 and 64 cm.
- Make sure that the helmet can be used in extreme cold conditions down to -30 °C.
