Please note the technical data of the products!

Article Numbers: 703438, 703393

Safety Instructions:

- Authorised use: Only suitable for professional activities.
- Always wear the cap when there is a risk of falling or impact to ensure optimum protection.
- Check regularly that the cap is not damaged and that there are no cracks or damage.
- Not suitable for use in potentially explosive atmospheres.
- Must not be stored at extreme temperatures or in direct sunlight. Hard hats must be protected from direct sunlight so as not to damage the material.
- Keep the cap away from chemicals and sharp objects.
- The cap should be kept away from children.
- The cap is only to be used for its intended purpose and must not be modified or altered.
- When used in dark environments, attention should be paid to visibility due to the reflective details.
