Safety Instructions:

- The safety helmet complies with the EN 397 standard and is designed for working environments.
- Ensure that the helmet fits correctly and that the adjustment of the strap system has been checked before use.
- If used incorrectly, the safety helmet may not provide the necessary protection.
- Check the helmet regularly for damage or wear to ensure its protective properties. If the helmet is damaged, replace it immediately.
- Do not use the helmet in conditions that do not correspond to the intended area of use. Only use the helmet for its intended purpose.
- The helmet must not have any parts or components that are not authorised by the manufacturer.
- Only suitable for use in commercial or industrial environments. Not suitable for children and vulnerable persons.
- Only use the safety helmet in accordance with the manufacturer's instructions. If you are unsure, consult the manufacturer.
- This safety helmet is not a toy and must not be used by persons under the age of 18 without supervision.
- The helmet offers no protection against electrical hazards, electric shocks or chemical effects. Do not use any chemical substances that could attack the material.
- Do not drop any heavy objects on the helmet.
- Observe the maximum load capacity of the helmet.
- Ensure that the helmet is correctly fitted before wearing it.
