Safety Instructions:

- Only use for commercial applications.
- Secure the helmet correctly before use and check it regularly for damage and wear. Replace if there are signs of damage or wear.
- Do not use for work involving electrical hazards without additional protective devices.
- Always wear the helmet so that it sits securely and firmly on your head and check that it is correctly adjusted to the shape and size of your head.
- Avoid loading the helmet with other objects so as not to jeopardise its protective function.
- The use of the helmet in combination with other protective equipment is recommended to ensure comprehensive protection.
- Keep the helmet away from naked flames and extreme heat sources.
- Find out about the correct instructions for cleaning and care.
- Read the instructions and safety information carefully before use.
- The helmet offers protection in normal use, but is not suitable for hazardous environments that go beyond normal use.
- If used in extreme conditions, such as high temperatures or chemical environments, take additional protective measures.
