Safety Instructions:

- VDE-insulated up to 1000V to avoid risk of electric shock; ensure that the insulation is not damaged.
- Adjustable span to minimise improper use.
- Integrated anti-slip protection for greater control and stability.
- Maximum precision and safety thanks to piece-tested production in accordance with IEC 60900.
- Only use in dry environments. Do not exceed the maximum voltage of 1000V.
- Check for visible damage before use; do not use if damaged.
- For electrical work, follow professional training and safety instructions; use only by qualified personnel.
- Only use the key for its intended purpose; avoid improper use as this can cause injury.
- Store the tool correctly to prevent damage; keep out of the reach of children when not in use.
- Always check the safety insulation and the instructions for use before use.
- Do not tighten or loosen under tension.
- Ergonomic design for better handling; avoid overloading.
