Safety Instructions:

- VDE-insulated up to 1000 V, use only for certified work by qualified personnel and check for absence of voltage to avoid risk of electric shock.
- Alloy tool steel blade, beware of cuts and punctures. Keep fingers away from the blade.
- Multi-component handle offers ergonomics, but the tool can slip if handled incorrectly.
- Products manufactured in accordance with IEC 60900, protection and proper handling required.
- Protect the screwdriver from moisture and extreme temperatures.
- Before use, ensure that the screwdriver is undamaged, as damaged tools should not be used.
- Only suitable for slotted screws, improper use can lead to damage. Use only for intended applications.
- Observe the safety instructions and warnings on the packaging and product in accordance with the Product Safety Ordinance.
- Keep screwdrivers and small parts out of the reach of children to avoid the risk of injury and choking. Not suitable for children under 3 years of age.
- Always wear suitable personal protective equipment when carrying out electrical work.
