Safety Instructions:

- Ensure that the product is manufactured in accordance with DIN 3223.
- Avoid improper use to prevent injury.
- Do not use the product near water or in damp environments to avoid corrosion.
- Keep out of the reach of children to prevent injury.
- The product is intended for professional use only and must not be used by untrained personnel.
- Protective measures must be taken when using the hydrant spanner.
- The product should only be used in its intended application.
- When using the spanner, it can require considerable force, so users should apply the correct leverage techniques.
- Any damage or abnormalities to the product must be checked and repaired before use.
